Dear Customer,

Webasto Product International wishes you many miles of open-air driving pleasure with your newly fitted pop-up sunroof. Your sunroof is a quality product from Webasto Product International. Please take a few minutes to study the following instructions carefully.

OPENING / CLOSING / REMOVING THE GLASS

Your sunroof is fitted with a 4 position handle. See item A of inside cover. To remove the glass (item B): move button on rear side of handle to release the closure mechanism. Remove glass panel complete with hinges from the roof.

RECOMMENDATION

If there is moisture or condensation on the glass when you start driving, we recommend first driving with the roof closed, until it has evaporated. After a few minutes the glass will be dry, and you can open the roof.

MAINTENANCE

To clean the glass, use only a mild, non-scratching detergent and a moist chamois leather cloth. Clean the rubber seal every three months with water and apply talcum powder after drying. Keep all parts dirt-free (leaves, dust, sand and so on).

In case of leakage or opening/closing malfunction, contact your dealer or a licensed installation workshop.
